

MARK

Dear Reader,

Acquisition opens new markets for Mark Information

With the acquisition of the Danish company Vagtplan.dk, Mark Information will intensify its' focus on the retail and service sector. Several years of experience with manning and job rostering, an attractive client portfolio and a development branch in Rumania has been added into Mark Information following the acquisition.

New ProMark version

Later this year a new ProMark version will be released, which will include new functionality for ProTime, ProJob and ProManagement. ProMark's Mobile functionality will also be enhanced, and give you a host of new benefits. Stay tuned for more information.

New customers

We welcome Brace's Bakery, Whyte & Mackay and Figleaves as new customers.

Service Check - a New Product from Mark Information

Consultants from Mark Information can now offer all ProMark – and/or k-TIME customers a service check of their entire installation and set-up. Typically, a single day consultancy visit would be required to your site and this will cover: Performance test of existing installation and control of backup procedures and any obsolete data on server.

A fixed price for this activity will be agreed prior to booking.

[Contact us](#) for further information or price.

Kind regards,

Mark Information UK Ltd.
