

ProMark 2.92 has now been released presenting really exciting, new functionality - two new sub-modules giving flexibility and savings. See below.

Also take a look at our other news:

- [ProMark Portal](#)
- [Changed local or union agreements](#)
- [New faces at Mark Information](#)

We wish you and your family a really nice summer!

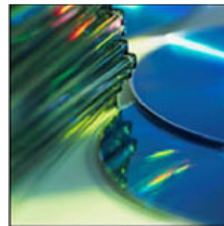

Best regards
Mark Information

ProMark version 2.92 has been released

It is now possible to upgrade to 2.92 containing improvements in ProTime, ProJob, ProReport II and in calculation speed.

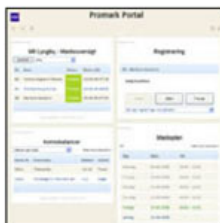

Simultaneously, the new version enables you to benefit from the exciting new products:

- ProMark Portal - read more in the next paragraph
- Attendance Analysis

[Please contact us](#), if you wish to upgrade to version 2.92.

ProMark Portal - ProMark access via intranet

We are proud to present our new ProMark Portal which is available for purchase in connection with ProMark 2.92. Here you have access to make registrations, attendance views, individual work schedules and much more via the web and from wherever you are. The screen can be role-based and tailored to show exactly the elements you want.

Changed local or union agreements

If you are facing changes and/or revision to your local or union agreements which will require changes to be made in ProMark, we urge you to contact us quickly in order to book time for implementing them.

Our consultant is also able to contribute to the actual process if you so wish.

Please contact Central Hotline at hotline.uk@mark-info.com or phone (0) 808 23 44 786.

Central Hotline

Have you registered our new toll-free phone number? Call (0) 808 23 44 786.

Please contact us about remote support, upgrades or other matters - [here are our contact details](#).

New faces at Mark Information

In the second quarter of 2008 we have welcomed two new professionals:

Hanne Daugaard started on 1 April 2008 as Application consultant in the Danish consulting department.

Hanne comes from a position with Tholstrup Cheese (later a part of the Arla Group) where she has worked with ProMark and payroll administration.

Kim Probst started on 19 May 2008 as Production Assistant in our hardware department at headquarters.

Kim has a background as a mechanic.
