E-NEWS OCTOBER 2009

SERVICE PACK FOR PROMARK

Dear

The summer is definitely running out - though it has held on by the tip of the nails this year. You could say the same about the financial crisis - it also tries to keep going.

We are aware that many of you have felt this through cust - both in the shape of increased cost control and what is worse - by losing good colleagues. To this should be added changed tasks and a busier working day in general.

With Mark Information we also recognize this situation, but we keep going steadily, and in this newsletter we can tell you about some exciting new possibilities in ProMark, launched in a service pack which is easily installed. Later this year you will hear about more and bigger news.

In the hope of a good and prosperous autumn.

Niels Bredegaard

PROMARK IN GENERAL

Change of employee number

Via host transaction 373 it is now possible to change employee number which could only be done in ProMark previously.

Detailed job report

Now you can get a detailed job report with job in/out registrations as well as the number of approved produced items.

NEWS IN PROMARK PORTAL

Filter

Now it is possible to set up a filter which allows administrators with access to all employees to filter among them and get a better overview in the portal. Simultaneously, the filters improve performance (the speed of the views).

Browsers

ProMark Portal can now run on the following browsers:

- Internet Explorer 7
- Internet Explorer 8
- Firefox 3.5
- Safari 4.0
- Opera 9.64

Absence

Via ProMark Portal, an employee can now register future absence and then see whether this has been accepted by his/her approver.

Transaction list

New and much more clear transaction list, ready for print from ProMark Portal.
