

# CYCLIFE SWEDEN AB

## ABOUT CYCLIFE SWEDEN AB

Cyclife Sweden AB handles and volume-reduces low-level radioactive waste (metal, liquids, combustible waste and radiation sources) for companies within the nuclear power industry and other industries – with customers in both Sweden and Europe.

Cyclife Sweden is a part of EDF Groupe (Électricité de France), one of the world's largest energy companies, partly owned by the French State.

Cyclife Sweden has 100 salaried workers and a number of hourly-paid employees at the waste facilities in Studsvik, just outside of Nyköping.

## QUOTES

**“***For Cyclife, the benefits of having a fully digitalised platform and integration to various business systems such as SAP and payroll – without human intervention and paperwork – are great. With exact job and project hours, we can provide our customers with offers that correspond to the actual production time.”*

**URBAN LIND, IT MANAGER**

## ABOUT MARK INFORMATION

Mark Information is an innovative software company offering the Workforce Management solution ProMark from offices in Denmark, Sweden, Norway, United Kingdom and Romania.

ProMark enables customers to optimise productivity and generate savings through scheduling the right resources, at the right time, for the right job and ensures that resources are remunerated correctly in the most effective way.

We service global corporations and have more than 1000 installations and 300,000 users.

# CONTROL OVER HOURS AND A BETTER UTILISATION RATE WITH AN INTEGRATED PLATFORM

## THE CHALLENGE

- Too many manual processes related to time reporting and absence management
- Insufficient overview of use of time on external projects for follow-up
- Insufficient overview of the production chain to be able to make the right scheduling, planning and follow-up

## PROJECT SCOPE AND SUCCESS CRITERIA

- An integrated solution for both production and project reporting as well as payroll-related data
- A solution that covers all salaried workers and hourly-paid employees in the Swedish part of the company
- All employees have a mobile phone for all reporting – even in production

## KEY MODULES

- Time & Attendance reporting (ProTime)
- Job and project registration (ProJob and ProProject)
- Registration via mobile app and terminals (ProMobile and ProTerminal)
- Integration with SAP Business One and Visma Agda PS payroll system
- ProMark Private Cloud (SaaS) and SuperuserService

## OUTCOMES

- Simpler payroll process, without manual work
- Managers have overview of employees' attendance and absence, which simplifies working time scheduling
- Collection of hours per job and project provides overview of production time and all internal working time for follow-up and forecasting
- Stable operation of ProMark and support for the ongoing maintenance and payroll preparations

## PRIMARY RESULTS

- Correct salary on time
- Optimised scheduling with control of working hours and overtime limits
- Exact job and project hours contribute to a better utilisation rate
- Predictable costs in the IT budget
