

DOKKA FASTENERS

ABOUT DOKKA FASTENERS

Dokka Fasteners is a niche manufacturer of fasteners to be used in demanding industries requiring robust solutions such as the Wind Power Industry, Crane Industry, Heavy Engineering and the Oil and Gas Industry. Industries where standard products are not sufficient due to for instance strong climate effects, air at oil rigs with a high salt content, mechanical wear etc. But also industries where defects could have devastating effects and involve excessive costs. This is where Dokka Fasteners enters the picture: Manufacturers of wind turbines, drilling rigs, cranes and steel constructions require fasteners of an exceptionally high quality both with regard to material and manufacturing.

Dokka Fasteners started their manufacturing in Dokka in 1970, employs 115 people and had an estimated revenue of 420 mill. in 2011. They are also represented outside Norway with a sales office in Denmark and a production site in USA.

QUOTE

“With ProMark we have eliminated the use of manual punch-clocks and removed a lot of manual routines. We now have an updated overview of who is at work and when. ProMark is highly user-friendly and easy to use on the shop-floor!”

GRETHE ROGNSTAD, PERSONNEL COORDINATOR

ABOUT MARK INFORMATION

Mark Information is an innovative software company offering the Workforce Management solution ProMark from offices in Denmark, Sweden, Norway, United Kingdom and Romania.

ProMark enables customers to optimise productivity and generate savings through scheduling the right resources, at the right time, for the right job and ensures that employees are remunerated correctly in the most effective way.

We service global corporations and have more than 1000 installations and 300,000 users.

LESS TIME AND CONSIDERABLY FEWER ERRORS IN PAYROLL HANDLING

THE CHALLENGE

- 14 days' delay in status on payroll, overtime etc.
- Reduce time spent on time and attendance registrations without affecting the quality
- Missing overall view of sickness absence, attendance time and holidays
- Managing 5 shift rotas and any other future shift rotas

PROJECT SCOPE AND SUCCESS CRITERIA

- A user-friendly system which is simple to use in production
- Speedy T&A registration with on-line validation
- Solution for handling T&A as well as access control
- Easy-to-use registration terminals permitting to print out one's own simple reports
- Direct integration to payroll

MODULES

- Implementation of ProTime
- Integration with Aspect4 Pay
- Registration on ProTerminal on the shop floor
- Registration on ProPortal in the administration
- Implementation of ProAccess

OUTCOMES

- Real-time overview of employee manning
- Control over company use of time and manning/scheduling
- Improved quality in payroll as manual processes have been automated and ProTime has direct integration to the payroll system

 **DOKKA**
FASTENERS

PRIMARY RESULTS

- Time spent on payroll handling and control reduced by 3-4 days a month
- Dramatic reduction in number of errors in payroll handling
