

KVERNELAND GROUP KERTEMINDE

ABOUT KVERNELAND GROUP KERTEMINDE

Experience, competence and quality are the characteristics of the plant in Kerteminde which is the Centre of Excellence for grass equipment in the Kverneland Group.

The adventure started in 1877 with the old Taarup Maskinfabrik. Since then the Kverneland Group has accumulated a wealth of technical know-how through research and development. With 50,000 square metres under roof, the plant in Kerteminde is the largest in the Kverneland group, producing equipments for the cultivation of grass such as equipment for forage, bale and feeding equipment. In recent years, the Kverneland Group has made large investments to increase capacity, flexibility and quality control. One investment is ProBI from Mark Information which gives management an improved decision support through tailored data reporting.

QUOTES – KVERNELAND GROUP KERTEMINDE

“The ProMark BI solution on time and jobs is the core of bonus calculation with integration to our EPOS payroll system and SAP ERP system. All this is a contributing factor to our: motivated and productive employees, high quality and great delivery compliance.”

JAN WEBER PEDERSEN, CFO, KVERNELAND GROUP KERTEMINDE

ABOUT MARK INFORMATION

KVERNELAND GROUP KERTEMINDE: HIGH POWER MANAGEMENT INFORMATION

THE CHALLENGE

- Lack of tools for accurate analysis of absence
- Complicated bonus calculations require simplified procedures
- Need for accurate data for decision-making

PROJECT SCOPE AND SUCCESS CRITERIA

- The solution covers 350 employees, both in production and administration
- The solution should ease administration and provide accurate and customized reports

KEY METHODS

- ProTime for time and attendance
- ProJob for job registration
- ProBI for analysis and reporting
- LAN-terminals for T&A and shop floor registration
- Integration to SAP ERP and EPOS Payroll

NEW POSSIBILITIES

- Overview over: Reasons for absence, absence of different employee types, departments and periods
- Ability to analyse both on time, efficiency, quantity and material consumption as well as scrap reasons in the production
- Data is used as active decision support available in relation to needs and situation

CFO
Jan Weber Pedersen

Kverneland Group Kerteminde

PRIMARY RESULTS

- ProMark is a major contributing factor to motivated and productive employees, high quality and great delivery compliance.
