## 5 tips for implementing mobile time registration

One of Europe's largest agricultural companies, DLG, has implemented [mobile time & attendance registration](#) among 112 lorry drivers in the group.

See video on how ProMark simplifies the HR administration and provides management insights for the benefit of the drivers, the HR department as well as the transport and planning department.

At the same time, the head of HR administration at DLG shares five tips for a successful implementation.

WATCH VIDEO AND READ THE 5 TIPS...

## Running for charity

On 29 May 2016, a small team of 2 from Cintra – a business partner within HR and payroll services – participated in the 90 kilometres Comrades Marathon in South Africa.

The purpose of taking part in the race was to raise money to improve education in Africa in close collaboration with the international

children's charity organisation COCO. The goal was to raise £5,000 to build a classroom for [Mercy Primary](#), located in a small rural community on the shores of Lake Victoria in Kenya.

Mark Information took the opportunity to support a good cause and a business partner taking on an extraordinary and tough challenge by donating £300 to the project.

THE RESULTS? READ MORE...

## Future functionality in ProMark

There are really exciting opportunities on the way in ProMark in 2016, and we want to unveil some of it already:

- Self-service for employees, managers and planners/approvers – e.g. application for time/days off or shift swop
- Split-shift: When the employees are to clock in several times during the same day
- ProMobile app – even more options and easier daily use

Something to look forward to! Watch out for when the new functionality is launched on LinkedIn or in our newsletters.

If you have a specific interest in one of the possibilities, [please get in touch with us](#).
