## Good experiences pave the way for mobile time registration

A digital revolution is fully under way at major companies – and the same is true for Workforce Management. Within this area, time registration and scheduling via mobile devices are becoming increasingly popular.

We have spoken with eight managers and HR administrators from companies such as Orkla Confectionery, Schneider Electric, SDC, Sydbank and Kverneland, who all have extensive experience in Workforce Management processes, about e.g. advantages and disadvantages, automated processes and how to get employees on board for mobile registration.

Read the eight interviewees' thoughts about a good user experience, and why you should not worry about safety.

## Have you signed up for our ProMark webinars?

Get a sneak-peek of what ProMark modules can do for you. The purpose is to give you an idea of the look & feel and benefits of each module and help you understand how they enable you to achieve major savings and enhance the efficiency of your processes.

The following webinars are planned this year:

**16 September:** [ProPortal](#) – the modern user interface

**14 October:** [ProRoster](#) – web-based staff roster planning

**18 November:** [ProMobile](#) – the perfect tool for employees on the move

**9 December:** [ProAbs](#) – structured follow-up on absence and overtime patterns

Each session will take approx. 30 minutes and will be run via the Internet and dial-in conferencing – and requires no prior installation. You will follow the presentation on your computer and will be able to communicate with the moderator and the other participants via the chat function or your phone. All our webinars are free of charge!

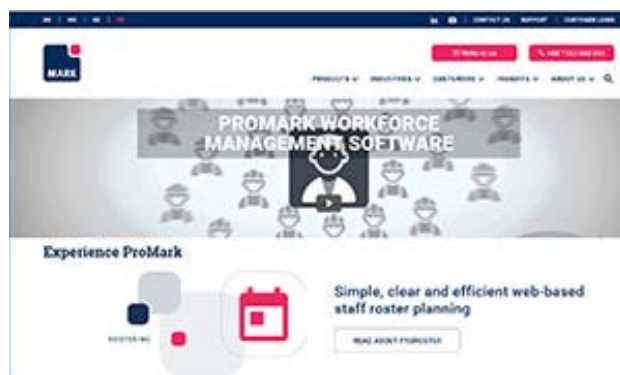

Sign up today to reserve your spot.

## Launch of new website

We are pleased and proud to present our new website, which went live last week.

First and foremost, our new site has a new and more modern visual look and feel. In addition, the new design is now responsive, which means that the website adapts to your screen – no matter what device you use. This offers a much better user experience.

We have also moved the content around a little so that it becomes simpler and easier to find information about who we are, what we offer and who we help – and to get in touch with us.

And finally, everything is transferred to a new technical platform that makes it easier for us to update the site with news, articles on Workforce Management, product news and more – now and in the future.

We hope you' will spend some time exploring the site and that you like what you see!
