

ProMark integration with ProHost

SIMPLE INTEGRATION VIA PROHOST

ProHost is ProMark's well-known integration module, offering a wide range of standard integrations to known systems via simple file exchange as well as by using various drivers such as ERP, payroll and HR driver or drivers for Microsoft Outlook Exchange or O365.

The methods are functioning well individually and have been proven over a long period of time. They are fast and easy to implement, can be configured as needed, and are easy to customize afterwards.

ProHost

INTEGRATION OPTIONS

SIMPLE INTEGRATION VIA PROHOST

ProMark can be integrated with other business systems in the company in a number of different ways, from the very simple to the most modern and advanced.

WELL-KNOWN INTEGRATION E.G. BY FILE EXCHANGE

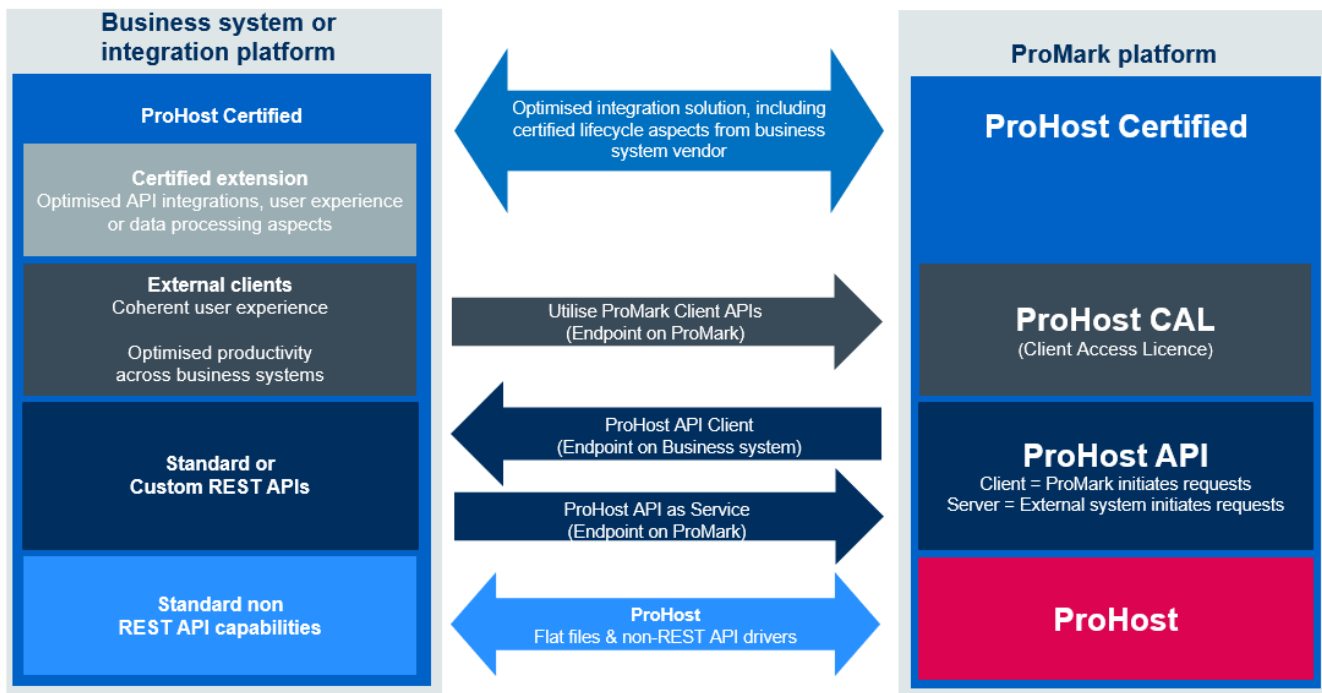

ProHost is ProMark’s well-known integration module, offering a wide range of standard integrations to known systems via simple file exchange as well as by using various drivers such as e.g. ERP, payroll and HR driver or drivers for Microsoft Outlook (Exchange or O365).

SIMPLE SETUP WITH DRIVERS

It is a simple form of integration, either from point to point or by using middle-ware which is fast and easily implemented between ProMark and your payroll, HR and ERP system either with a CSV file driver or with a driver defined specifically for the individual business system.

STANDARD INTEGRATIONS

ProHost already contains a wide range of standard integrations, including drivers for MS Outlook (Exchange or O365), and we offer a number of data templates which facilitate setup based on 40 years’ experience.

See our standard integrations on the next page. Depending on your need, such as many integrations to various systems, business intelligence and more, it might be that one of our more modern integration methods suits you better.
