QUOTES

“*“The ProMobile app simplifies and streamlines the entire management of the temporary workers pool. Ahlsell saves time and money by having a flexible pool of temporary workers where the management of these employees in ProMark supports the rules applicable to casual workers. And, as an employer, we get”.*

INGELA THOLIN CARLOS, PRODUCTION PLANNER

ABOUT MARK INFORMATION

Mark Information is an innovative software company offering the Workforce Management solution ProMark from offices in Denmark, Sweden, Norway, United Kingdom and Romania.

ProMark enables customers to optimise productivity and generate savings through scheduling the right resources, at the right time, for the right job and ensures that resources are remunerated correctly in the most effective way.

We service global corporations and have more than 1000 installations and 300,000 users.

SIMPLIFIED AND EFFICIENT HANDLING OF THE TEMPORARY WORKERS POOL

THE CHALLENGE

- In 2019, Ahlsell established their own temporary workers pool. The communication around vacant shifts took place via phone and email with follow-up by pen and paper – and subsequent manual handling in ProMark. This was a very time-consuming process.

PROJECT SCOPE AND SUCCESS CRITERIA

- The need for extra shifts is created from forecasts on the number of orders to be picked and the known absence
- All vacant shifts are published in ProMobile and can be taken on a first-come, first-served basis – without manager approval
- Support for continuous increase in the number of users

MODULES

- ProMobile app with self-service function
- Ahlsell already uses:
 - ProTime for time & attendance registration for all employees in Sweden and Norway
 - ProRoster for staff roster planning
 - Integration to HR-plus and Visma payroll systems
 - ProTerminal

OUTCOMES

- Much more efficient and precise handling of shifts
- Everything around working time is in place when the students clock in
- Employees always have an overview of their shifts on their mobile
- Team managers get a complete overview of their staff

PRIMARY RESULTS

- Saves time and money
- Better ability to meet demand compared to Ahlsell's highly detailed forecasts
- Correct remuneration of the students
- A modern image as an employer by using cutting-edge tools
