Technical debt hampers efficiency

Being in debt is not a nice feeling. And, the greater the debt, the worse the feeling. Not only does it kill new thoughts and ideas, it also means that your room for manoeuvre becomes more and more limited over time.

The same debt principle applies when it comes to IT systems – and consequently, also to the work processes you offer your employees.

Moreover, it can have considerable consequences for the company's efficiency and ability to retain and attract employees – and, in turn, its competitiveness.

Learn more about how you can reduce the technical debt in your company and ensure that your IT systems are ready to meet future requirements.
