

How to get business value from transforming legacy solutions to cloud ecosystems

Today, companies are faced with a disruptive marketplace and a growing demand to provide efficient and easy to use IT applications that optimise their end-to-end workflows, ensure customer satisfaction and minimize cost. While IT solution providers have addressed these challenges for many years, technology innovation and advancement have also provided new opportunities.

Get an overview of the trends evolving in the market and how we respond to them to make ProMark a safe decision – now and in the future.

SAP® Certified
Integration with SAP Applications

ProMark achieves certified integration with SAP solutions

SAP® Certified
Integration with SAP S/4HANA®

The SAP® Integration and Certification Center has recently certified the integration between ProMark version 4.60.00 and SAP applications as well as the database platform SAP S/4HANA.

ProMark provides accurate payroll and absence data to SAP solutions – without a need for custom programming – while allowing companies to leverage the HRMS functionality in the ProMark platform. This reduces the manual routines and errors in payroll calculation, increases efficiency and makes ProMark a future-proof solution.

ProMark mentioned in Gartner Market Guide for the third year in a row

Gartner has recently published an updated version of their Market Guide for Workforce Management Applications. The guide provides an overview of 16 representative vendors and their solutions.

We continuously invest in the development of ProMark and in recent years, our focus has been on cloud enablement, mobility and self-service which can be decisive parameters when companies are faced with choosing the optimal Workforce Management solution.

We are therefore proud to be mentioned in the guide for the third consecutive year and see this as an important recognition of our work.
